The exhibitors with the number(s) indicated on the right side of their names are interested in dealing foreign products in home market in Japan, for example as a distributor. The interested products groups are classified as follows:

- ① Electromedical equipment / Medical Technology
- ② Laboratory Equipment
- ③ Diagnostics
- ④ Physiotherapy / Orthopaedic Technology
- ⑤ Commodities and Consumer Goods
- ⑥ Information and Communication Technology
- ⑦ Medical Services and Publications

Our PEG-based technology, underpinned by the strong academic background, can propose feasible and optimal solutions. We create soft materials with desired and designated properties, as long as the science permits. Simple combinations of branched polyethylene glycol intraoperatively produce materials with a wide variety of physical properties, such as gel suture which potentially can be an artificial ligament.

Messe Düsseldorf Japan, Ltd.  
29 Years' Experience in Japan's Medical Sector

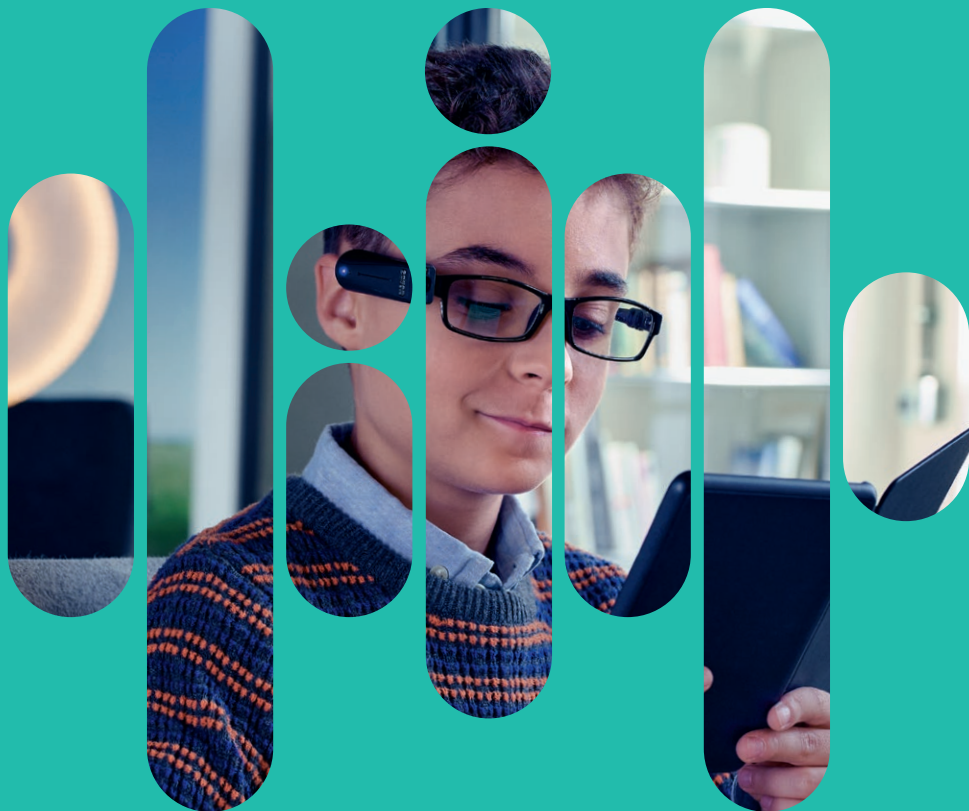

COMPAMED

When it comes to the Japanese medical and healthcare market, there are few companies who have the same experience and insight that Messe Düsseldorf has. For the past 29 years, Messe Düsseldorf Group has been operating in Japan via its subsidiary Messe Düsseldorf Japan, Ltd., bringing Japanese exhibitors and visitors to the MEDICA & COMPAMED in Düsseldorf and our medical trade shows worldwide which is under the brand name MEDICAlliance. During this time, we have built close relations with all major Japanese medical associations and other industry groups, and we have been continually monitoring the domestic medical and health-related devices market. Naturally, we follow international trends as well. Through our presence at the leading Japanese medical trade fairs, we exchange opinions with industry leaders and players, many of whom are repeat exhibitors at Messe Düsseldorf trade shows.

- Ms. Akiko Ohara, President
- Mr. Hironori Hattori, Project Manager / Medical Fairs
- Mr. Masahiro Hashiki, Project Manager
- Ms. Nao Tomita, Project Manager
